First Name: _____
Surname: _____
Date of Birth: _____

These prices are for all treatment undertaken between 1st August 2011 and 31st July 2012.

The Human Fertilisation and Embryology Authority guidance states that Centre's should provide a costed treatment plan. This plan is an estimate of the cost for the main elements of your treatment, however there may be some variation following any test results and further investigations may be required, at which stage another plan would be discussed with you.

Once you have agreed to this costed treatment plan, payment must be made prior to the investigation/test(s) being undertaken.

1 CONSULTATIONS

Your first consultation at the Centre will last approximately one hour where any investigations and screening tests required prior to commencing your treatment will be discussed with you. You will have the opportunity to ask questions and receive written information.

Any investigation which may not have been performed elsewhere will also be arranged at this time.

Following the first consultation we would ask you both to attend a session with our Counsellor. When you have seen the counsellor a second consultation will be arranged at which time screening tests will be undertaken.

Counselling prior to commencing treatment within the Centre is available on a sessional basis depending on your needs costs indicated below. Whilst undergoing treatment two counselling sessions are included in cycle cost.

	Cost	Required	Cost
Initial Consultation	£150.00		
Counselling	£100.00		
		Total	

2 INVESTIGATIONS

Not all tests will be required by all patients, this plan will indicate what tests you require in the first instance. Depending on the outcome further tests may be required.

		Cost	Required (√)	Cost
For the Woman	Diagnostic ultrasound scan	£100.00		
	Saline Contrast Hydrosonography	£200.00		
	Basal FSH	£25.00		
	Trial of Embryo Transfer	£150.00		
For the Man	Semen Analysis	£75.00		
			Total	

3 SCREENING TESTS

Screening tests are required if they have not been done by your GP or elsewhere in the last 12 months. These are not required prior to every cycle and therefore should be viewed as one off costs.

		Cost	Required	Cost
Second Consultation		£150.00		
		Cost	Required	Cost
For the Woman	Trial cycle - medication	£122.00		
	HIV, Hepatitis B&C	£30.00		
	Chlamydia	£25.00		
	CMV	£25.00		
	Rubella	£20.00		
For the Man	HIV, Hepatitis B&C	£30.00		
	Cystic Fibrosis	£50.00		
	CMV	£25.00		
Total				

4 DONORS IVF/ICSI TREATMENT CYCLE PER CYCLE

The treatment may change on the day of egg recovery from IVF to ICSI or occasionally egg freezing, therefore the costs may change depending on clinical need.

The costs may vary if the donor is known to you or if it is a donor the Centre has recruited for your treatment. Donors recruited by the Centre are shared between two recipients, however if the donor is donating just for you the full cost of the donor consultations, counselling and screening will be incurred. The quantity of stimulatory drugs can vary depending on each individuals response.

	Cost	Required	Cost
Preparation of known donor – consultations, counselling, screening	£1,000.00		
Preparation of unknown donor – consultations, counselling, screening	£500.00		
In Vitro Fertilisation Cycle (IVF) known donor- All down regulation and stimulatory drugs and monitoring, egg collection, follow-up appointment plus HFEA charge	£3,100.00		
In Vitro Fertilisation Cycle (IVF) unknown donor - All down regulation and stimulatory drugs and monitoring, egg collection, follow-up appointment plus HFEA charge	£2,000.00		
If treatment cancelled prior to egg collection known donor Refund:	£2,000.00	Discussed	
If treatment cancelled prior to egg collection unknown donor First recipient Refund:	£700.00	Discussed	
If treatment cancelled prior to egg collection unknown donor Second recipient Refund:	£1,300.00	Discussed	
Total
